Journals published by Maria Curie Skłodowska University Press are assigned DOIs (Digital Object Identifiers) which makes them easier to find online and increases the chances that the works will be cited by other scholars. Therefore, including DOIs for reference list is crucial. You can check if a work you are citing has a DOI. Please go to http://www.crossref.org/SimpleTextQuery/ and paste your list of references there. Each author and editor may check up to 1000 references per month free of charge.

The system allows for submitting articles and metadata in several languages simultaneously.
Every article should include: a title in English, an abstract and key words in the language of the article and key words in English or other foreign language as well as a list of references with DOIs provided for all positions that have them.

Example
Ghosh, M.K., M.L. Harter. 2003. A viral mechanism for remodeling chromatin structure in G0 cells. Mol. Cell. 12:255-260, http://dx.doi.org/10.1016/S1097-2765(03)00225-9
